Number 3

1998

DOGS ARE WONDERFUL, SIMPLE CREATURES, CAPABLE OF PERFORMING COMPLEX TASKS. YOUR TRAINING TOOL SHOULD BE THAT WAY TOO.

Introducing the NAHRA Special – a New Breed of Remote Trainer from Tri-Tronics.

It's wonderful.

We didn't just make our collar smaller, we made it even lighter than our Lite Series collars. And it's designed to better conform to your dog's neck. The collar strap threads around the outside of the unit ensuring a more snug, reliable fit.

Don't be fooled by its good looks. It's waterproof and built to take all kinds of abuse in all kinds of conditions.

Best of all, we now give you one-mile range with no external rubber-flex antenna in the collar!

Our transmitter is waterproof, and features low-profile buttons and a removable button guard.

It's simple.

The real beauty of the NAHRA Special is more than skin deep. What makes it perfect for the avid hunter and trainer alike is that it's very easy

to use. You no longer need variable intensity contact points in the collar. Variable intensity levels are now quickly and easily adjusted by a knob at the top of the hand-held transmitter, allowing for a range of intensities that can be immediately tailored to any situation or any dog.

Once you've selected the intensity level, you can instantly select 3 levels of momentary stimulation and one level of continuous stimulation by touch, using the buttons on the

transmitter. There are 15 levels of momentary and 5 levels of continuous stimulation in all.

With the NAHRA Special, you won't have to try to program your collar and transmitter like a VCR before you train. Everything is simple.

We've also added more great features. There is a low battery indicator on the transmitter and collar. Also, the LED tells you when the collar is working – no need for a test light. No more turn on plugs either – turn the collar on and off at the transmitter.

New NAHRA Special \$395 MSRP

It's capable of performing complex tasks.

We pioneered momentary stimulation. In fact, it works so well we patented it. Momentary stimulation is almost over before it starts, and that means you can deliver a very effective message to your dog without upsetting him. Use it to reinforce commands, and switch to the reserve high continuous stimulation when your dog is tempted by strong distractions. Use lower levels for basic yard work.

With the new NAHRA Special, you have a lot of versatility for all-around use.

Our new collar (left) is 1/3 smaller than our Lite Series collars.

For more information or to order the NAHRA Special call, **540-286-0625**. Or write to NAHRA, P.O. Box 84, Goldvein, VA 22720. When you purchase products from NAHRA, a portion of the profits go to support this organization.

THE FRONT COVER:

Carol Ramsay and her German Shorthair Pointer, 'Jaeger'

President's Bark by Jack Jagoda

Quite a bit has happened since the Invitational the first week in May.

NAHRA was represented at the Ducks Unlimited Great Outdoors Festival in Memphis, Tennessee. We had a booth at the event and took part in the retriever demonstrations. NAHRA members; Clarke and Dixie Pauly from Birmingham, Alabama, Herb Bittner, Don Evans and Marty Grabijas from Virginia, all pitched in to make the event a success.

The middle of August, I traveled to Hanover, Germany to do a retriever training clinic for members of the German Retriever Club. The main focus of the clinic was to introduce electronic training. Most of the people had a preconception of harsh collar training and robotic dogs in America. It took patience during the weekend seminar to dislodge the adversity, but it was worth the effort. As with any training device used incorrectly, there will be problems. We shared our philosophy in training techniques, trials and hunting with our retrievers. Although we had differences of opinion, we could all agree that dogs with strong inherent natural abilities and the intelligence and desire to learn were important.

The last few hours of the clinic, we set up NAHRA Started and Intermediate tests for all the dogs to run. Handlers and dogs had a great time. There was interest in running a NAHRA test in 1999. Who knows, the concept may spread through Europe.

I returned from Germany on a Thursday; and Friday I was running a NAHRA Double Senior at the Three Rivers Retriever Club test at Sandy Point, Virginia.

A week later I was off to Spokane, Washington to judge a NAHRA Started, Intermediate and Senior Field Test. on Friday evening

I attended the fall Northwest regional meeting. The Regional Liaison, Phil Oldale took charge of the meeting and kept it on track. Dates were discussed for the 1999 schedule and support for new clubs in Idaho and Montana. The Region has enjoyed increased interest and participation in the last two years. Club representatives discussed hosting the Invitational in the year 2000. The meeting came to a close, some went to dinner, and others turned in to rest for the weekend testing.

I was pleased with the quality of dogs and handlers in all categories. Congratulations to the clubs, members and dogs of the Northwest Region. you can be truly proud of your accomplishments.

There is a chill in the air in many parts of the country which signals the arrival of the hunting season, and cold months to come.

In the southern regions of the country we are beginning the fall NAHRA tests, with hunting season soon to follow.

You should all be proud of the dogs you produce and assured that we will go afield with the most proficient hunters in North America.

Notes from Nancy...

Hello, Everyone! Just as the seasons change, many other things in our lives change too. NAHRA is no different. But, change can be good - it breaks up the monotony!

To begin, I'm your new office manager, at NAHRA Headquarters. There is still a lot to learn and a lot to do, so please be patient. I am in the office Monday through Friday, 9am to 3pm, EST. Please feel free to call me about your membership, inquiries or changes to your Field Test Applications, Judge applications, or if you need paperwork of any type. Questions about your dog's points, qualifications, and certificates are best answered by Rosemary Haynes. She can be reached at 540-898-4216.

NAHRA Clubs, please remember that

you are required to carry liability insurance, and a photocopy needs to be on file at NAHRA headquarters. As you renew your insurance each year, send us a copy, this will insure that we have it on file when you submit your Field Test applications. Also, if you do not have a current copy of the Judge list, and you are trying to schedule judges for your field tests, please call and ask for one. They are updated every six months. Please select judges that have kept their membership current. It is a responsibility they accepted when becoming a judge. Please sign up new members using current NAHRA applications with the new membership fees. If you need new applications, I'll be glad to send them to you. (or you can photocopy page 27).

To those of you who are breeders, I encourage advertising in the NAHRA NEWS! NAHRA has received quite a few phone calls and e-mail from folks who are looking for retriever puppies. Since we do not know who you are, the best we can do is refer them to the regional liaison for the area the requestor lives in. It would be nice to have a specific breeder or breeders to refer to. Many thanks to those who did advertise in this issue. It has been helpful for NAHRA, and hopefully profitable for you!

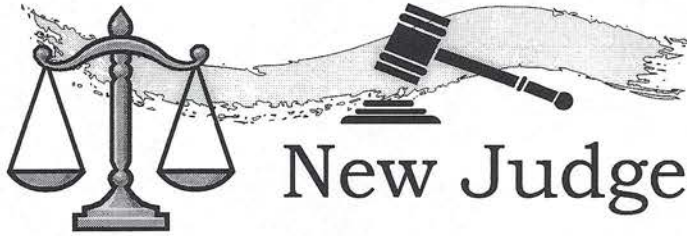

When submitting ads and articles to the NAHRA NEWS, please realize there are six to eight weeks between the deadline and when it is actually mailed out. If you have not opted for first class mailing, it could be an additional 2-3 weeks before you receive your NEWS.

In 1983 the new hunting retriever testing program was announced. The concept was an idea in fruition for Richard A. Wolters as his dream came true. Richard chronicled the birth and progress of the program in his Gun Dog magazine column. One of the first clubs to join and perhaps the oldest and strongest continued supporter is;

The Spokane Bird Dog Association
1983 - 1998

THE RAINBOW BRIDGE

There is a bridge connecting Heaven and Earth. It is called the Rainbow Bridge because of its many colors. Just this side of the Rainbow Bridge there is a land of meadows, hills and valleys with lush green grass.

When a beloved pet dies, the pet goes to this place. There is always food and water and warm spring weather. The old and frail animals are young again. Those who are maimed are made whole again. They play all day with each other.

There is only one thing missing. They are not with their special person who loved them on Earth. So, each day they run and play until the day comes when one suddenly stops playing and looks up! The nose twitches! The ears are up! The eyes are starring! And this one suddenly runs from the group!

You have been seen, and when you and your special friend meet, you take him or her in your arms and embrace. Your face is kissed again and again and again, and you look once more into the eyes of your trusting pet.

Then you cross the Rainbow Bridge together, never again to be separated.

-Author Unknown-

A Miniature Retriever

If someone had told me a year ago that I'd be standing out in the middle of a field with my dog, guns firing off around me and ducks being thrown around, I'd have laughed in their face. I'll be the first to admit "Percy" doesn't look like a hunting dog, never mind a retriever. It's difficult to look seriously attached to a white miniature poodle. But don't let his size fool you; take determination, the desire to please and add some of what makes a poodle a poodle (a somewhat off the wall sense of humor) and you've got a dog who's got a few ideas of his own on how the job should be done.

Perhaps I should give you some history. Percy is nine years old and still participates in flyball and agility. In addition, he has an obedience title and has traveled around Canada performing as part of the Superdogs (a theatre style dog show). Last year he received his Versatility In Poodles certificate for his accomplishments. After some discussions with the chair of the VIP program, it was suggested that going for the Versatility Excellent certificate was definitely achievable if we looked at accomplishing a title in another discipline. After having eliminated a couple of options,

hunting was suggested and off we went.

A couple of my friends were training their dog and set up an introduction with their trainer. Soon we found ourselves signed up for classes, much to the amusement of my close friends and some of my classmates. Needless to say we've had to overcome some skepticism (including my own). After dealing with gunshyness, Percy eventually made up his mind that the noise of the gun was minor obstruction and thoroughly took to retrieving his birds with enthusiasm. Over the winter months and into the spring we continued our training between flyball and agility events. By the end of the spring he was working successfully. A few lessons of retrieving ducks in water, and the consensus was that he was ready for a real hunt test. A little bit of arm and leg pulling, and I found myself filling out entry forms, sending off registration

papers and packing my bags for Pennsylvania in August. What were we getting into?

The Southwestern PA Hunting Retriever Club test was the perfect introduction to what a hunt test was all about. The reception from everyone was really great. They were curious and supportive of our efforts. Unfortunately we ran into the "new test syndrome" - I was so nervous, I could hardly remember my own name, never mind my dog's. Percy took full advantage of being off leash and decided to do some laps around the field, until the bird was shown to him. He then came proudly back with his prize and was eager to do it again, but he had to wait until Sunday. That day was more fun! Each time he successfully returned, the gallery cheered and clapped - even the judges thought I had a fan club. It would have been absolutely wonderful had Percy retrieved the third bird, but by then he was interested in doing some socializing. Nevertheless, I was glad he

had improved from the day before, and even though we didn't get to show off in the water, I know that we can do the job and will be back again.

Our biggest challenge is dealing with his small size in comparison to a labrador or golden retriever, but he has lots of tenacity and speed, and that inevitable sense of humor that manages to humble me, no matter what game we're playing. He's fun to watch (just ask all the folks at the Southwestern PA HRC who thought he was a rabbit), and he's a great worker when he puts his mind to it.

The whole experience was a great one - making new friends, getting lots of suggestions and encouragement, and with the weekend weather cooperating fully, it was a great time. The fact that we spent a weekend watching some really great dogs do their stuff and see a variety of breeds work, including a Dalmatian and a Weimaraner, really made the experience worthwhile.

Many thanks to all the people who helped us get started: Emily Cain for the suggestion, Roger and Nancy Stonell for support and encouragement, John Hamilton for his time and effort. Most of all, thanks has to go to Percy who, despite his size, has desire, determination and a great nose when he remembers to use it!

One special note to the folks at NAHRA for their assistance in answering all my questions and giving me the final push to go for it.

Keystrokes from Kent Repka...

In the last issue of the "NAHRA News", I listed the point information for U.S. Judges. Somewhere between my notes and the finished article, I deleted a comment about doing a similar report on Canadian judges, in the "next issue". Computers are great, but they only do what you tell them, not what you are thinking. I heard about my error at a recent Field Test when three of my friends from Ontario asked why I left them out. My intent was not to leave Canada out, but to do this report. Here it is, and thanks for keeping an eye on me, at least I know three people read the information.

I mentioned in the earlier article that it takes many things to present a first class Filed Test. Suitable test grounds, help, birds, equipment and so many more things must be in place, but without judges nothing happens.

The current Canadian section of the Judges List contains 91 names. Here is the breakdown. There are five judges with 30 or more points (48 is the highest). Fifteen judges have between 20 and 29 points. Twenty one have between 10 and 19 points and forty one have between 1 and 9 points, and nine judges have no points.

The greatest number of Canadian judges, 26, reside in Quebec, followed by Alberta with 19, Manitoba with 13, Nova Scotia with 11 and New Brunswick with 9. There are 6 each in Ontario and Prince Edward Island, and 1 in British Columbia.

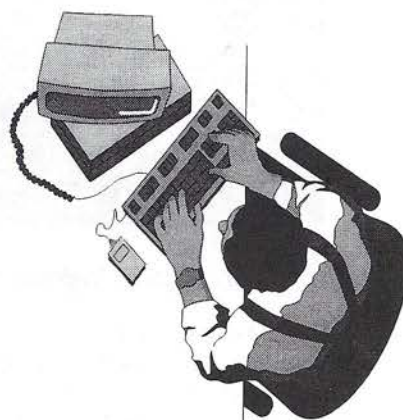

With 9 judges having no points, 82 pointed judges carry the majority of the work at the many Field Tests in Canada each year. Obviously, there are many members, on both sides of the border, who graciously accept judging assignments at other clubs and if the nine "forgotten" judges are in-

involved, the eligible "pool" is increased by almost 10%.

Hopefully, this will encourage others to step forward, take the judges test and make it known that they are willing to give others a chance to run their dogs.

If the hard working judges who accept assignments each year refused to come to your club, and you were unable to run your dog, wouldn't it be a shame?

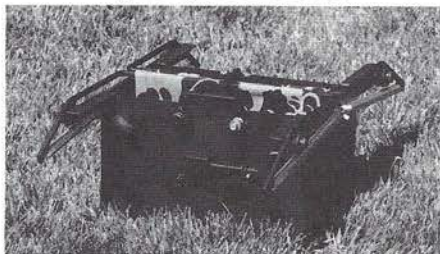

Get involved, become a judge, you will enjoy it!

Keystone Enterprises HIGH-FLYER Bird Launcher

- ◆ We use only high quality materials
- ◆ This unit uses light weight grade aluminum not this sheet metal.
- ◆ This is a great launcher for training sit to flush, and by adding a 209 primer, you have the ability to throw marks consistently and farther than other launchers on the market.
- ◆ Remote or Manual release available.

FROM THE

REGIONS

FROM THE SOUTHWEST REGION...

THE FUN CLASS

This was our seventh year that Bill and I have been doing a class through Inland Valley Retriever Club. It's been called a Beginner Class, a Refresher Class, but it's really a *Fun Class*.

The classes are for handler-owners and their dogs, introducing them to field work or play. We always have a great time learning something new about people, dogs and training. It is a great experience and gives us a lot of satisfaction. It is also a super way to recruit new NAHRA and club members. This year 9 new members joined both organizations.

Who joins our *Fun Class*? Handlers and dogs of all levels. New owners that have been encouraged by various breeders, handlers that are at upper levels of hunt tests, or owners wanting to condition their dog for the hunting season. We even see previous handlers with new pups or they want to learn more and are ready to go on to the next level.

We get the biggest kick out of watching the dogs who really didn't know they were retrievers...when suddenly with a little work and lots of enthusiasm, a light bulb goes on and the fun begins. Just seeing the looks on the owners faces and the demeanor of the dogs, sends chills up and down our spines. The pictures tell it all for the thrilled owner and the proud dog with his bird or bumper. And boat training day is a blast!

We started this year a little differently. Phil Dechene, one of our club members, shared his time as a gun dog trainer with the first class. Phil worked with the handlers, he gave them some tips from the line and even hands-on, when demonstrating out in the field. He kept the class in stitches with his comical humor and methods of handling and

Boat training day - First time in & out of a boat -

training. Even for us, it gave us somewhat of a different insight for training. It was great!

Each year has its' own memories or incidents that stick in your mind. This year wasn't any different, especially with the 16 dogs we had. The class was working in what we call, the 'dike pond'. A handler was walking his dog back to the kennel when the dog got away from him. At the same time, one of the club members, was yelling, "Here comes a duck!", and a big white

American Water Spaniel - Getting tuned up for his national event!

bumper goes up high, followed by a shot and comes down with a big splash for the dog on the line. The young dog on the line, leaped with much desire, into the pond and out of nowhere came the second dog flying into the water to catch up with the other dog. Running down the dike, yelling "#@!#!?", did not stop his dog, when all of a sudden we saw a third big splash! I'm not sure who was surprised most...the dogs, us or the owner of the 'run away'. Who got the bumper??? Does something like this bring back a memory or two? These incidents do happen and they are funny, but we make it a rule not to get uptight. The club members helping out are very supportive to everyone. This is the place to learn all those valuable lessons.

Within the Southwest Region, various events are put on by the clubs. Just

to name a few: 'Shoot to retrieve', 'quail walk', 'monthly training days', judges seminar, NAHRA picnic trial with club and NAHRA rules intertwined. and the beginner/fun classes.

We really urge clubs to start a program like the *fun classes* to help increase your 'Beginner' entries at your hunt tests. It's easy to produce and copy a flier. Distribute them to the

'Dancer loves to work, play & show off. John is mighty proud of him - and should be!

hunting clubs within your area and also to obedience and breed clubs. Remember to include local veterinarian offices, new puppy buyers, feed stores and local pet shops. This year one of our members called **Western Outdoors** magazine and gave them the information on the classes, and also our upcoming hunt test. What a great way to advertise 'free' in their calendar section. Good PR and you will build your club and NAHRA membership!

Dianne and Bill Ouillette

7 Months old - Getting ready for hunting & first NAHRA test in October

WINDSTONE GOLDEN RETRIEVERS

Presents:

CAFC Cedarpond's RV X High Times Flyin' Zephyr

Litter due October 1st

"RV" is a hard driving 70lb male with an excellent training attitude. To date he has accumulated 45 All-Age points and 4 placings.

"Zephyr" is a 45lb, fast female with a great water attitude. Zephyr is running Senior in hunt tests.

Puppies are expected to be birdy and stylish with a lot of desire. Both parents OFA and CERF clear. Hip and eye guarantee by breeder.

FROM THE

REGIONS

From the North Atlantic Region

After reading Kent Repka's article entitled "Do You Know What It Takes To Run a Field Test?", in the last issue of NAHRA NEWS and received several queries from local judges about how we are doing with judges in the Atlantic Canada, I decided to take a few moments and gather some numbers on the Canadian portion of our Region. This being Nova Scotia, New Brunswick and Prince Edward Island.

The North Atlantic Region has been associated with NAHRA for over 10 years and currently consists of four clubs with approximately 54 NAHRA members. Of these 54 members, 28 (or 52%) are found in the list of judges.

One judge has accumulated 48 points, while another has 37 points. Seven individuals have between 20 and 29 points. Eight have between 10 and 19 points. Nine have between 1 and 9 points and 2 currently have no points, but will be judging in August of this year.

I believe that these numbers indicate commitment of the people in our Region to NAHRA. Knowing we are a small region, participants realize that to survive, we must each set aside a day to judge, so that others may run their dogs. Long live NAHRA!

Robert MacMillan
North Atlantic NAHRA
Regional Liaison

Five Ways To Scare A Dog

Heartworms. Fleas. Roundworms. Hookworms. Whipworms.

Parasites can make your dog miserable – and sometimes even cause death. SENTINEL™ (milbemycin oxime/lufenuron) Tablets protect against all of these parasites with just one tablet a month. From the makers of PROGRAM®. Only from your veterinarian. **Only SENTINEL Protects Against Them All.**

www.sentinelpet.com

Sentinel
(milbemycin oxime • lufenuron)

SENTINEL MEANS PROTECTION.

SENTINEL™ (milbemycin oxime/lufenuron) Tablet Brief Summary: Please consult full package insert for more information. **Indications:** SENTINEL tablets are indicated for use in dogs and puppies, four weeks of age and older, and two pounds body weight or greater for the prevention of heartworm disease caused by *Dirofilaria immitis*, for the prevention and control of flea populations, the control of adult *Ancylostoma caninum* (hookworm), and the removal and control of adult *Toxocara canis* and *Toxascaris leonina* (roundworm) and *Trichuris vulpis* (whipworm) infection. **Precautions:** Prior to administration of SENTINEL Tablets, dogs should be tested for existing heartworm infections. Mild, transient hypersensitivity reactions manifested as labored respiration, vomiting, salivation and lethargy may occur after treatment of dogs carrying a high number of circulating microfilariae. **Adverse Reactions:** The following adverse reactions have been reported in dogs after giving milbemycin oxime or lufenuron: vomiting, depression/lethargy, pruritus, urticaria, diarrhea, anorexia, skin congestion, ataxia, convulsions, hypersalivation and weakness. **Caution:** U. S. Federal law restricts this drug to use by or on the order of a licensed veterinarian. **How Supplied:** SENTINEL Tablets are available in four tablet sizes; 2.3/46mg, 5.75/115mg, 11.5/230mg and 23/460mg. They are formulated according to the weight of the dog. Each tablet size is available in color-coded packages of six tablets each. **Storage Conditions:** SENTINEL Tablets should be stored at room temperature, between 59°F and 86°F (15°-30°C). ©1998 Novartis. SENTINEL and PROGRAM are trademarks of Novartis. NAH/SEN-T/BS/1 04/97

Please show your support by helping to insure working retrievers for generations to come.

FACTS ABOUT NAHRA

- The originator of the national hunting retriever concept.
- Largest Hunting Retriever association in the world - dedicated solely to the hunting retriever and conservation of game.
- Maintains a working stud book including all the dogs that have received hunting titles, their registry, color, sex, breeder, owner, and location.
- Provides clubs throughout the U.S. and Canada.
- Provides technical assistance to clubs and individuals.
- Publishes a quarterly publication with test results, articles on training and testing retrievers.
- Membership advertising available in quarterly publication.
- Conducts retriever training clinics and seminars for judging NAHRA Field Tests.
- Provides a rule book with a structure to test and reward the hunting retriever under simulated hunting conditions for both upland birds and waterfowl.
- Provides a list of certified judges.
- Awards titles and certificates to purebred retrievers that meet the standard.
- Provides a NAHRA pedigree showing all NAHRA, AKC and CKC titles (Field Trial, Hunting Test and Show Titles).
- Offers recognition certificates to dogs that have earned a show or field championship and a NAHRA working title.
- Conducts the national "Invitational Field Test" annually for the top Senior dogs.
- Conducts 9 Regional Field Tests for the top Started and Intermediate dogs.

The Southwestern Pennsylvania Hunt-
ing Retriever Club held its sixth annual li-
censed trial (double Started, double Interme-
diate and double Senior) on August 1st and
2nd. Lots of people and lots of dogs (190
entries) attended and qualified. Saturday's
tests were topped off by an old fashioned pig
roast, a silent and live auction and a great
raffle. The weather was sunny and pleasant
and so were the participants who came from
Pennsylvania, Virginia, Maryland, New York,
Ohio, Michigan, Idaho and Canada. Hope to
see you next year!

Jack Jagoda

Phyllis Giroux, DVM

From AROUND the World

The following letter was sent to NAHRA following a trip that Jack Jagoda and Phyllis Giroux made to Germany.

Seminar with Jack Jagoda and Phyllis Giroux, DVM.

On the 8th and 9th of August 1998, Phyllis Giroux and Jack Jagoda held a Retriever Training Seminar for the first time ever in Germany. The Seminar was organized by Adrian Lunn and Ilka Seffer and sponsored by Tri-Tronics. It was also the first time that (as far as the Author is aware) American Trainers had run a Training Clinic in Germany.

Due to a lot of peoples pre-conceptions about not only the American way of training but also about the use of electric training collars, the participation was limited.

Hunting in Germany is vastly different to the type of Hunting available to almost everybody in the USA. In Germany a Hunter has to rent a "Revier", which is a piece of land not less than 75 acres and no more than 300 acres for a period of 9 years. He is then responsible for the game on this land and has to pay the farmer for any damage caused by the game on his "Revier". This combined with the rent for the land can cost up to 30,000 DM/year (\$15,000). So you can guess what sort of people are doing the Hunting over here. The game hunted in Germany is mostly Roe Deer, Fallow Deer, Red Deer, Wild Pig, and Hare. Therefore the Retriever until recently has been much maligned by the "typical" German Hunter. The Hunters here like to think that they have found the perfect "allrounder" in the German Wirehaired pointer breeds, as a lot of them expect their dogs not only to retrieve but also track, point, do spaniel work and hunt and rip down wounded game (try that on a 150kg mad and wounded Wild Boar!)

There has been a lot of English influence in the Retrievers in Ger-

many and therefore the popular misconceptions about Americans and how their dogs work is also widespread in Germany. Combine this with the fact that Electric Training collars, due to massive misuse by most German Hunters, are very unpopular amongst the Retriever enthusiasts and you can imagine the job that Jack and Phyllis had in front of them.

The seminar started on Saturday morning with the participants trying out the dreaded electric collar on themselves, all of them were very surprised at the small amount of current going through the collar. Jack & Phyllis then proceeded to give them a demonstration with their two Labrador Retrievers, GMHR Six O'clock Scholar and MHR Maggie. The two dogs were totally opposite to that which we had heard of American Retrievers, instead of being robotic and "cowed" through being trained with the Electric Training Collar, they were happy hunting dogs, thoroughly under control and at the same time being allowed to use their hunting instincts and abilities to enable them to find the game (or in this case - bumpers). After the demonstration, Jack and Phyllis went through the various stages of training a dog the "American Way". The Handlers present were very impressed by the fact that the dog was so controlled by Jack and Phyllis that it was unable to make a mistake, the use of the rope to train a dog was, for most of the participants a totally new concept and one that caused nearly as much discussion as the electric training collar. At the end of the day there was a dinner attended by all of the participants. Due to the fact that nearly all of the

Handlers were trying to come to terms with the fact that the collar is not a device for causing pain or for punishing the dog, but when used correctly, a useful Training device, the Dinner was a rather quiet affair.

On Sunday after going through the rest of their normal Training Program, Jack and Phyllis explained to those present what NAHRA is all about and why it was formed. We then received a thorough explanation of the NAHRA Hunt Test program, which is a lot different than our tests here in Germany (or England). All of the Participants were amazed at how laid back and simple the Test Program is, as the Tests that are run here are very regimented. After the explanation, we ran through the "Started" test (not very successfully), which everybody enjoyed, especially when Jack started calling the Ducks in and telling the Dog Handlers to get their butts on the seat as the Ducks were coming in.

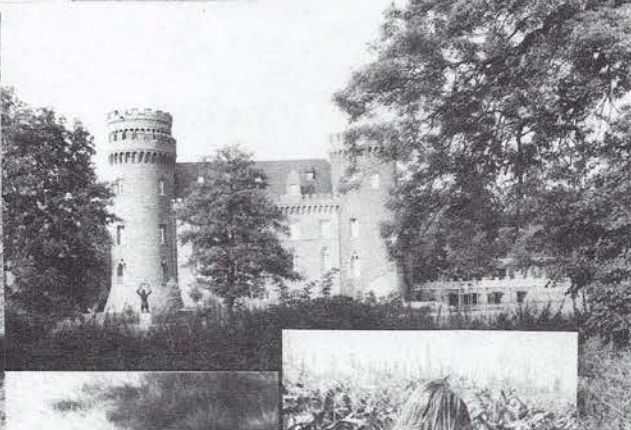

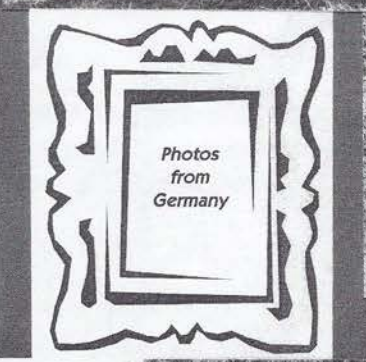

Thanks to the knowledge and professionalism of Jack and Phyllis, along with the support and sponsorship of Tri-tronics, the weekend was a great success (despite the language barrier) and an experience that we would like to repeat in the near future.

If everything goes according to plan, Jack and Phyllis will be visiting us again next year when we hope to run a weekend of NAHRA Hunt Tests, as well as another Seminar.

It remains for me to say thank you very much to Jack and Phyllis for taking the time to come and give us a very interesting insight to the "American Way" and to Tri-Tronics for Sponsoring the event.

THEIR SUCCESS CAN BE SUMMED UP IN JUST ONE LINE.

The Purina® line of dog foods has helped lead all these champions to one place. First place. Time after time. And though they all have championship titles in common, all have their own individual nutritional needs.

That's why we've developed such a wide range of formulations. So whether adjusted for differences in activity level, stress level, caloric demands, desired level of protein, life stage, or simply ingredient or taste preference, there's a Purina food that meets the demanding needs of your champion. Without the need for supplementation.

The Purina line of dog foods. Choose from our line to feed your line today.

 **Purina®**
Chosen by Champions.
