Want him to hunt better?
Then test him like you hunt.

North American Hunting Retriever Association

NAHRA

FIELD TESTS FOR ALL-AROUND HUNTING RETRIEVERS AND UPLAND HUNTING RETRIEVERS

NAHRA's purpose is to discover and reward dogs that can fulfill the hunter's needs in the field by performing in a manner consistent with the demands of actual hunting conditions. *Dogs compete in categories based on ability not age.*

**Conservation of game through the development of trained retrievers. The first organization dedicated to preserving hunting retriever skills.*

- NAHRA, incorporated in 1984, is the originator of standards-based retriever field testing using realistic hunting scenarios.

- Dogs compete against a set of standards set forth in our rule book, not each other.

- Advanced titles require dogs to demonstrate proficiency in both upland and waterfowl work. Upland Hunting titles are a recent addition to NAHRA and exemplify the best in upland hunting retrievers.

- Field tests are realistic, simulated hunting scenarios, with distances and conditions that hunters would encounter in the field.

- NAHRA supports clubs throughout the U.S. and Canada.

- *Basic and Advanced Titles* are awarded as well as Annual Recognition of *High Point Dogs in each Division* and an Annual Invitational Meet to qualify for the Master Hunting Retriever Team.

STARTED SR

The purpose of the Started Hunting Retriever Field Test is to bring started dogs along as hunters. Desire and cooperation with the handler are important factors. The test consists of 5 single marks. Start with a basic love of finding and retrieving birds.

HUNTER HR

Hunter builds on the started retriever with formal obedience training, steadiness, and delivering birds to hand, important objectives for the hunting retriever. Transitions to Basic double marks on land and water, steadiness, and a trail.

INTERMEDIATE WR

Intermediate dogs that pass the standard should be hunting dogs. They are obedient and have a good knowledge of hunting situations Tests marks, blinds, upland hunting, and a trail. Develop an all-around upland and waterfowl hunter.

SENIOR MHR

The Senior test takes an Intermediate dog and adds training and experience. Senior dogs should be under complete control. They handle sharply and mark precisely. NAHRA MHR's are the elite of all hunting dogs; a dog you're proud to own and hunt anywhere.

WORKING UPLAND WUR

The Working Upland is the introductory level test for upland and builds on the upland requirements of our historic intermediate test by wrapping elements into 2 hunts. It is the precursor to the Senior or Master Upland Retriever.

SENIOR UPLAND MUR

Senior Upland dogs are finished hunting retrievers capable of hunting upland anywhere. They possess skills to search & locate game, are steady to flush and shot, navigate terrain, cover & diversions. These dogs handle sharply and above all, remain under complete control at all times.
